ASAD MUJEEB

Data Analyst

asadmujeeb559@gmail.com | +92 316 6328876 | linkedin.com/in/asadmujeeb

PROFESSIONAL SUMMARY

Results-driven Business Intelligence Engineer with 1+ years of experience designing data pipelines, building enterprise dashboards, and deploying machine learning models that drive measurable business outcomes. Proficient in Microsoft Power BI, Python, PostgreSQL, Tableau, and Looker Studio. Hands-on expertise in ML (classification & regression), Exploratory Data Analysis, AI automation using n8n, and RAG-based chatbot development. Adept at transforming complex datasets into compelling visual narratives for C-level stakeholders.

TECHNICAL SKILLS

Visualization	Microsoft Power BI, Tableau, Looker Studio, Excel
Programming	Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Streamlit)
Databases	PostgreSQL, MySQL
ML	Classification, Regression
Automation	n8n workflow automation, RAG
Analytics	Exploratory Data Analysis, GA4, Firebase

PROFESSIONAL EXPERIENCE

Data Analyst | **DREAM EDGE TECHNOLOGIES** **March 2026 – Present**

- Analyzed app and game performance using Firebase Analytics and Google Analytics 4 (GA4).
- Tracked user funnels, retention, cohorts, and engagement metrics to optimize product performance.
- Monitored monetization metrics including Ads, IAPs, Subscriptions, ARPU, ARPDAU, and LTV.
- Performed geo-wise and cohort-based analysis to identify growth opportunities.
- Collaborated with developers to define and validate event tracking in Firebase and GA4.

Machine Learning Engineer | **BLUE CASCADE** **April 2025 – March 2026**

- Developed scalable data pipelines and automation solutions with n8n
- Built interactive Power BI and Looker Studio dashboards tracking real-time KPIs, enabling data-driven decisions for senior management.
- Developed and optimized complex SQL queries for data extraction, transformation, and automated reporting workflows.
- Implemented Python-based automation scripts integrated with n8n to streamline repetitive data ingestion and alert workflows.

Business Intelligence Analyst | **AI NEURALZ** **May 2024 – October 2024**

- Analyzed web traffic data (50K+ daily sessions) using SQL and Python for HDHub4u streaming platform, improving content strategy and boosting user engagement by 18%.
- Designed multi-layered dashboards in Power BI, Tableau, and Looker Studio to visualize KPIs including DAU, retention rate, and conversion funnels.
- Integrated Google Analytics behavioral metrics with BI tools to enhance audience targeting and reduce churn.
- Delivered weekly insight reports and executive presentations, translating complex data into actionable recommendations.

KEY PROJECTS

End-to-End Sales Intelligence Platform | Power BI + PostgreSQL + Python

- Designed a full BI solution integrating PostgreSQL and Excel sources using Power Query ETL
- Deployed automated refresh pipelines and row-level security (RLS) for multi-tenant client access.

Customer Churn Prediction Model | Python · Scikit-learn · Streamlit

- Built and tuned a Random Forest + XGBoost ensemble model achieving 91% accuracy on a 100K-row telecom dataset
- Deployed as an interactive Streamlit web app for business stakeholders.

AI-Powered RAG Chatbot for Business Data Queries | LangChain · OpenAI · n8n

- Developed a Retrieval-Augmented Generation chatbot allowing non-technical users to query internal databases and dashboards in plain English.
- Orchestrated automated data refresh and notification workflows using n8n, reducing manual reporting overhead by 40%.

Social Media Sentiment & Brand Analytics | NLP · Python · Tableau

- Scraped and processed 200K+ tweets using Tweepy and TextBlob for real-time brand sentiment scoring
- visualized polarity trends and topic clusters in Tableau for marketing teams.

VOLUNTEER & COMMUNITY LEADERSHIP

Data Analytics Lead | **Microsoft Learn Student Ambassadors – Multan** **Aug 2024 – Apr 2025**

- Led data analytics learning initiatives engaging 500+ students; organized orientation sessions and a Career Counseling Event at Garrison Public Library with industry experts.

Data Analytics Trainer | **The Youth Matrix**
May 2025 – Feb 2026

- Deliver an online Fellowship Training Program covering Power BI, SQL, Tableau, and Excel to cohorts of aspiring analysts, develop structured curriculum and hands-on projects.

EDUCATION

Bachelor of Science – Computer Science
2021 – 2025
Bahauddin Zakariya University - BZU Multan

CERTIFICATIONS & TRAINING

- AI & Big Data Training – **NAVTTC**
- Business Intelligence Program – **Google**
- Python for Data Science – **DataCamp**
- Data Analysis with Python – **FreeCodeCamp**
- Data Analyst Career Track – **Codecademy**
